

**Diocesan Guidelines for Overnight Trips
or Events with Youth and Events Involving Travel, other
than School Field Trips and Sports Transportation**

The purpose of these procedures and guidelines is to help ensure the safety of our youth (i.e. persons under 18 years of age), staff, and volunteers, to reduce the diocese's, parish's, and/or school's liabilities, and to eliminate or reduce risks to our youth. These procedures and guidelines are to be read in conjunction with all safe environment documents set forth in our *Diocesan Pastoral Handbook* (See Policies 107.1 – 107.9)

1. These guidelines supplement our safe environment policies, and assume compliance with all policies, regulations, and procedures set forth therein.
2. These policies apply to all events or trips that involve traveling more than 150 miles (one way) within or outside the parish or diocese, and those trips involving overnight accommodations. This policy does not apply to parish or school day field trips, which are treated in a separate policy. This policy does not apply to trips to games by sports teams sponsored by our schools. These game trips are regulated by school policy. It applies to all other events or trips that are sponsored by any parish, or school, or by the diocese that involve travel in excess of 150 miles or overnight accommodations.
3. A parish, school or diocesan department, and their employees, have certain basic duties to insure the safety and well-being of all youth, staff, and volunteers, including a duty to provide clear instructions, a duty to condition and equip the participants properly for the event, a duty to provide adequate and prudent supervision, a duty to provide safe vehicles and facilities, and a duty to provide prompt and appropriate care, including care for injuries.
4. Trips with youths are extraordinary and are rife with possibilities of injury or other dangers. Great care must be taken to properly limit exposure of our youths to danger. Prudent safeguards are important.

Procedures

Description of Trip, Activities and Approval Process

1. Prepare description of all details of the trip, including:
 - Sponsoring parish(es), school(s) or diocesan department(s);
 - Purpose of the trip;
 - Date and time of trip;
 - Place of origin;
 - Estimated number and ages of participants;
 - Related promotional materials for the trip (if available);
 - Any activities of the trip that present an elevated risk of injury, such as swimming, boats, remote locations, hikes, animals, air travel, motorized activities;
 - Means of transportation proposed (bus, car, train, plane, etc.)
 - Means of providing meals or food;
 - Means of lodging (if host homes, submit safe environment documents);
 - Estimated costs and funding sources;
 - Preliminary trip itinerary and schedule of activities
 - Health related information and medication requirements
 - Releases from parents required and obtained; and
 - Other special requirements or details.

2. Avoid dangerous activities such as hang gliding, helicopter rides, hot air ballooning, parasailing, skydiving and parachuting; motorized races, go-carts, white water rafting, jet-skiing, and other high risk activities.

3. Approval Process

The description of the event should be submitted to the pastor of the parish, or principal of the school, or the supervising vicar of the diocesan office or department sponsoring the trip or event (“administrator”). The administrator should review the description of the trip or event to determine the appropriateness of the activities (considering participants’ ages), ensure insurance coverage is in place (including consultation with insurance department of the diocese), assure certificates of insurance are in place and name the sponsor and diocese as additional insureds, provide preliminary approval of the proposal, and monitor progress as the trip is advertised, publicized, and implemented.

The administrator should further assure that high risk issues have been addressed and that proper documentation has been obtained or is in place. These high risk situations include medical needs of participants, releases for medical treatment, if necessary, proper number of chaperones are recruited and are of proper age.

4. Supervision and Chaperone Selections

All youth must be supervised by an adult at all times. If you cannot see the participants, you are not supervising them. Staff and chaperones must exercise close control over participants during trips or events. Chaperones should be alert and paying attention to the participants and circumstances.

There should be a regular and periodic accounting of all participants, such as a “buddy check” or participant count. This is particularly true during an activity change (such as boarding a bus, going to a meal). Have a plan to adequately supervise participants during overnight stops (room checks, chaperone on duty during the night, etc.)

Determine the number and qualifications or characteristics of chaperones needed. The ratio of chaperones to participants for out of town or overnight trips or events should be one chaperone for every four participants due to the added risks for such trips. Factors to be considered when determining the number or characteristics of chaperones include the number of participants, age of participants, age range of participants, type of transportation, safety considerations, gender of participants, safety skills required for trip or event (water activities, hiking, camping, out of country travel). At least one chaperone should be First Aid/CPR certified.

All chaperones must be background checked and the three hour VIRTUS training (Policy 107.4). Chaperones must be mature, at least 21 years of age, and must sign an Adult Code of Conduct for Volunteers (107.8).

5. Transportation Options

The preferred means for transportation is chartered bus or a bus owned by a parish or school, when possible. A certificate of insurance naming the sponsoring parish and/or diocese must be obtained as per diocesan policy.

The use of private vehicles is allowed. However, if private vehicles are used for trips for minors, the following efforts to assure safety must be followed:

- The volunteer driver must be an adult with a valid driver’s license and must have all safe environment training and background check, and must sign and agree to the Code of Conduct for Adult volunteers (107.8).
- Private vehicle drivers must provide proof of vehicle insurance with minimum liability limits of \$100,000 per person/\$300,000 per accident and \$50,000 property damage.
 - ♦ The vehicle must be inspected and registered.
 - ♦ Parents of minors must sign a permission form giving permission for their minor child to ride with a volunteer driver in a private vehicle.

- ♦ Minors are not allowed to drive themselves or others.
- ♦ Any parent may elect to transport his or her own child during the trip. Such parent may also be a volunteer driver for others on the trip provided all the volunteer requirements are met.
- Air transportation/water transportation/train/commercial airlines, trains, and/or commercial ships, ferries are often used when traveling requires. Any such travel arrangements must be approved in the approval process above.

6. Provision of Food

If meals, snacks and/or drinks will be provided, such plans must be detailed in the approval process. Meals provided by restaurants, diners, or other facilities are acceptable.

Meals prepared by the participants must be closely monitored and supervised (e.g. Guggenheim events).

7. Overnight Housing

- Sleeping accommodations for minors and chaperones must be made and approved prior to the trip. Room assignments or groupings are to be gender-specific and roommates or participants sharing an area for overnight accommodations are to be close in age. Chaperones must be same gender as participants in rooms or other living areas they are supervising.
- Supervision must be close while participants are at housing facility. Additional chaperones may be needed. Participants must have supervision at all times. If chaperones will not sleep in same rooms as participants (optimally parent in same room with child), specify how participants will be supervised in their rooms/sleep area (shower area and toilet area). Specify in plans prior to approval whether there will be room checks, hall monitors, or other supervisory methods. Supervising vicar must specifically approve these arrangements.
- Host homes may be utilized. All adults living in the host home must be background check and safe environment trained according to the policies and programs of their home diocese. Written proof of background checks and safe environment training must be obtained and submitted to the Diocesan Safe Environment Office and to the school principal, pastor or Supervising Vicar during the approval process above.
- If possible, inspection of the housing facility should be visited and inspected prior to the trip. In the alternative, recommendations from an approved travel agency or some other source should be obtained.

- All housing information, including name of facility, address, phone number and cost of the housing facility must be communicated in advance of the trip to parents/guardians and participants. The sleeping arrangements and supervisory plan should also be disclosed to parents prior to the trip.

8. Parental Information and Consent

- Parents must be informed in writing about all aspects of trips involving minor participants (see sample description and itinerary form).
- For lengthy trips (more than three days) or out of country stays, provide parents with a formal opportunity for questions and discussion, such as an informational meeting for parents/participants. Discuss the applicable information below:
 - ♦ Purpose of trip;
 - ♦ Budget and fundraising and cost to participant;
 - ♦ Detailed itinerary for participants;
 - ♦ Arrangements for chaperones (number, ages, etc.);
 - ♦ Proposed housing arrangements and information;
 - ♦ Proposed eating arrangements;
 - ♦ Rules of conduct for participants;
 - ♦ Review Adult Volunteer Code of Conduct;
 - ♦ Parental permission forms
 - ♦ Emergency procedures;
 - ♦ Potential safety risks;
 - ♦ Information related for foreign travel, including immunizations required, passports, laws relating to drugs (including prescription drugs) and appropriate conduct in foreign country.
- Ensure necessary forms for parents/guardians are received, returned to the school, parish or sponsor, and permission/emergency forms are reviewed before the trip. Parents/guardians should receive the following forms/documents:
 - ♦ Letter explaining the trip
 - ♦ Detailed schedule and itinerary, listing mode of transportation, housing, and eating arrangements
 - ♦ List of items participants should bring
 - ♦ Parental permission form
 - ♦ Health information/emergency contacts/permission for emergency treatment form.

9. Participant Preparation and Chaperone Training

Pre-trip training (participants and chaperones)

- Sponsors should provide pre-trip orientation of participant and chaperones that include the following topics, as applicable:
 - ♦ Behavioral expectations (go over rules);
 - ♦ Describe activities participants will be part of;
 - ♦ Special hazards that have been identified;
 - ♦ Acceptable and unacceptable locations for participants to enter (e.g. bars, nightclubs);
 - ♦ Itinerary of the trip and map of the area;
 - ♦ Importance of washing hands;
 - ♦ importance of staying with the group;
 - ♦ what to do if separated from group;
 - ♦ procedures for walking in high traffic areas;
 - ♦ use of buddy system;
 - ♦ other related information;
 - ♦ what clothing/equipment to bring
 - ♦ urge caution with valuables and money

- Sponsor should provide chaperone training
 - ♦ Proper Supervision: We owe a duty to young people to protect and supervise them. The main goal of supervision is to protect young people from injury or lessen the risk of harm. Adults do not automatically have the ability to supervise young people: training is necessary.

 - ♦ Supervision has four components:
 - 1) Presence and attentiveness: Chaperones should be with youth at all times, keeping the youths in sight. (out of sight = unsupervised) Do not become distracted: stay focused on the youths. Chaperones need to be physically able to participate in activities that are part of the trip.

 - 2) Monitor behavior and intervene: Chaperones should know the rules and enforce them. Do not allow youths to leave the group. Do not allow roughhousing, horseplay or other inappropriate behavior. Take appropriate action when rules are not followed or youth is in danger.

 - 3) Surveillance and intervention: Chaperones must be risk-conscious (with focus on area where youths are likely to encounter risks). Check areas to be visited and address hazards.

- 4) Respond to emergencies: Chaperones need to know how to handle emergencies to reduce potential injury or damage. A chaperone certified in First Aid/CPR is required.
 - 5) Go over Code of Conduct with chaperones.
 - 6) Instruct chaperones on emergency procedures, how to get assistance, and whom to contact in the event of an emergency. Review medical concerns with staff and chaperones so they are informed of medical issues before an emergency arises.
 - 7) Parents serving as chaperones may not bring children other than the participating child on the trip.
- How to handle emergencies
 - ♦ Types of emergencies that can arise on a trip include lost youth, medical emergency, serious injury, inclement weather, abduction of youth, dangerous acts, illegal acts, overt defiance, repeated noncompliance with procedures and regulations, and other serious disciplinary problems.
 - ♦ When participant is hurt, chaperone should never fail to get involved (err on side of caution), give aid, summon medical help, do not move the youth, report incident to sponsoring organization, administer first aid, contact parents as soon as possible, keep record of what happened.
 - ♦ Provide a method for communication in event of an emergency (e.g. all above), have alternative method if that does not work. Provide phone number for staff/chaperones to contact the sponsoring pastor or department head/diocesan official. Allow such official to contact parents. Have parent contact information and permission forms for emergency treatment available.
 - ♦ Take proper lifesaving equipment, such as first aid kit, for the trip. If the trip involves hiking, bring along extra clothing, extra food, extra water, first aid kit, map, cutting implement, matches, flashlight and compass.
 - ♦ Medical emergency cards/information/permission for treatment forms must accompany group and copy be left with sponsoring organization.
 - ♦ At least one staff member or chaperone must be trained in distribution of medications and must know how to secure medications during the trip.

- ♦ Special care must be taken for trips involving use of watercraft or swimming.

10. Foreign Travel

Use of groups or business that provides travel arrangements, housing, and meals are allowed. Screen the tour company to assure it is a reputable company with a good safety record, has adequate insurance, and has written emergency policies in place.

Arrangement for foreign travel, whether through a third party or not, must include travel arrangements (air travel and land travel), housing, meals, sleeping arrangements, and insurance coverage overseas.

Note: It is recommended that all participants be transported via sponsor arrangements. It is the sponsor's discretion whether or not to allow participants to be transported via another means of transportation. If the participant is transported via means other than arranged by the sponsor, the parent releases the sponsor from any and all liability that may arise as a result of this alternate means of transportation.

If a parent is allowed to transport his or her own child, that parent must act as a chaperone and meet all the requirements for being a chaperone. Our risk management insurance insures chaperones and the presence of parents who are not chaperones jeopardizes the protection of our participants and other adults on the trip.
